Profit From The Peak: The End Of Oil And The Greatest Investment Event Of The Century

Synopsis

Profit from the Peak contains the information you need to successfully navigate the end of our oil-based economy. It takes a hard look at the future of oil and gas, examines how you can effectively invest in these resources, and profit from energy alternatives that are poised to power the years ahead. Along the way, this book also explores the potential, and possible limitations, of each major energy source, while carefully cover the investing angles of each one.

Customer Reviews

First of all, as to the reviewer who advised the authors should question the environmental impact of our voracious appetite for energy:The human race could adopt a simpler life. The only way that can happen is if we have a massive die-off of most of the human population. Also, it would be a society where people die young due to lack of modern-day health care, and so forth.I believe the assumption the authors have made regarding energy demand are sound. People WANT to live what they perceive to be a better life. Some of the aspects of such a life are: advanced health care, the ability to travel, the ability to have a career involving challenging intellectual pursuits, as opposed to having to devote one's life to doing grunt work in order to put food on one's own table.I am totally prejudiced on this matter. I believe the amenities of modern society have been of tremendous benefit to me. (frankly, if I had lived in older days, due to my physical frailties, I no doubt would have died long ago).Now a few people may prefer the simpler life, but the vast majority of the people of the world want the amenities that we in the developed world have. I don't see the people of China saying, "hey, we'd rather spend our lives harvesting rice and living in mud huts".-----OK, so much for

the rant, now on to my review. The book is a good overview of the peak oil situation. For those not familiar with peak oil, it provides a lot of the fundamental facts that those who have studied this issue have discovered.
