Its an amazing inside view on how beautiful , but crazy glamour can be when u are an up and coming star in Hollywood.

Tyler's artistry, creativity, and style set him apart from all the others. His work is in a class of his own. *The Dirty Side Of Glamour* gives us a small yet incredible glimpse into his world. A beautiful book full of beautiful work. I can't wait to see what this madman has in store for us next!

Gorgeous book. I wish the pictures were labeled, because some of the people you can't recognize. But who can complain, it's amazing, as all of Tyler's work usually is,

Disappointed in the book. I am a huge fan but I was disappointed at the lack of celeb photos in the book that are shown elsewhere. I'm a huge fan of Aaron Paul, Garret Dillahunt, Emma Roberts etc & I loved the photos of them by Tyler I saw on his website. I assumed they would be in the book but they aren't! There are a few of Emma, but not the ones I liked on his website. The majority of the

photos I liked on his website were not in this book.

Purchased for a photographer friend (aka someone who actually understands modern photography). To me (a non-artist), the book reads like a drunk Instagram account...and I don't hate it! The photos range from wonderful to super artistic. A nice coffee table book if you never have children or easily offended guests over.

This book is incredible. It's different than any other photography out there. A lot of Tyler's shots work as an optical illusion. So it's more than just good pictures. It's magic. Seeing work like this inspires you, it makes you want to get out there and start creating whatever it is that drives you. I give this book a 5 star review. Tyler Shields has done it again.

Tyler Shields is a creative genius. His creativity knows NO bounds. The first book on his work, The Dirty Side of Glamour, (more will surely follow!) gives a wonderful sampling of his work to date--but only a HINT of what is yet to come from this tireless creative. Excellent photographer who has produced this wonderful compilation of his works. I am excited to see what the future holds for Tyler Shields and I am also looking forward to seeing what future publications he releases.
