## Customer Reviews

This book really helps and comes out perfectly every time, If you are really believing in yourself and not having a bad attitude. If you say that you think it will come out great, it will. But, if you say it will be sucky, than it will.

This book is so cute! I bought it today for a great price and I am so glad I found it. It is a Very informative and detailed book. step by step. suitable even for beginners with minimum drawing skills. It's Manga faces only, So I hope I will know how to draw their bodies. LOL.. I'll try.. I have some drawing skills.. :) Anyway, a Great book for a Great price. -Get it!..

My 13 year old is suddenly intrigued with drawing manga/anime, so it was a no brainer for me as a mother to buy her this 99 cent book for her Kindle Fire. Thirty seconds after it popped up on her Kindle, she had her sketchpad out and was already practicing some new techniques found in the book.

It's good as a basic guide. However, one small image of drawing a face per page is too much. If they're going to show how to it, they should add a bit more explanation right beside the drawing sample image. You can find all the same examples anywhere for free so don't waste your money on this one.

I am indeed impressed for this, MY starting to drawing was when i was still four and i started drawing anime when i was six. buying this book was cheap so i didnt expect much however it was more than what i expected! it really supported my crappy expressions! i am indeed satisfied of this and one word, EXCELLENT ! :D

I love to draw and sketch so yes would say that this bookseller me do something in my time. I just love anime most of all because it's so easy to draw because I can draw it and make it weird but it looks natural this is the best way of saying that I am a very good and curious person.

It is pretty detailed in the drawings and directions, so it is a useful tool for a drawing artist. Time will tell as I learn this method of drawing. it's likeable but this is my opinion only.

When drawing character's for Children's book, the expressions shown in this book will help. As you can see I gave it a 5 star rating because of the diagrams in this book.
