# Making Data Work

## **Synopsis**

The third edition of "Making DATA Work" aligns with the third edition of "The ASCA National Model: A Framework for School Counseling Programs," which emphasizes the importance of using data to drive school counseling program development, implementation and evaluation. "Making DATA Work" complements the ASCA National Model by providing step-by-step implementation strategies, skill-building activities, examples and resources to help school counselors develop program goals, collect and analyze data and share their findings with key stakeholders.

## **Book Information**

Paperback: 136 pages

Publisher: Amer School Counseling Assn; 3 edition (June 2013)

## **Customer Reviews**

My job had become a constant data management challenge. This book was nice to find. Instead of reading pages upon pages of descriptions about data, it uses a practical show not tell method. It has clear cut samples and graphic organizers to help anyone use data. Particularly applicable for anyone working from the ASCA model.

Very helpful. This book is great! It tells you how to think about the data you want to collect, how to collect and analyze it and how to present it. It shows you examples of a make believe school and then has a blank sample for to use as a template. I can not wait to use the information!

Recommend this book to anyone that is interested in data driven counseling. A lot of examples were given for middle and high school levels.

Well written easy to read and great applicable data reports for school counselors. This is one book I will not be selling back!!
