Ventriloquism Made Easy: How To Talk To Your Hand Without Looking Stupid! Second Edition

Synopsis

Learn how to throw your voice. Make your hand talk, your shoe sing, and your mother-in-law shut-up! Everyone will be tongue-tied when you start talking to the lamp shade and it talks back! Ventriloquism, as taught in this book, is easy to learn if you follow a few simple rules. Anybody can do it! And it's so fun that once you start, you'll be talking to yourself for hours. This book explains how to use standard puppets as well as novelty figures such as balloon animals and gym socks. Includes 22 complete comedy dialogs to get you started. All outrageously funny.

Customer Reviews

As someone who got interested in ventriloquism (and eventually dumped a 20 year newspaper career to work with WOODEN dummies) I was often frustrated reading how-to-do-ventriloquism books. Most were either amazingly boring, unknowingly pompous, or filled with cutsey-comments that seemingly padded an explanation of what I believe is actually a relatively easy "art" (if you are nutty enough to practice in front of a mirror until you perfect the "hard" letters). This is one of my FAVORITE now to do ventriloquism books -- and to this day it remains the funniest. I still do a routine in my show based on the structure of one of Paul Stadelman's classic bits (I have long since replaced the actual jokes). The late Paul Stadelman was a "classic" and I believe underrated vent who performed, taught and was on television for many years. And this book is worth it's price just for the zippy routines with Stadelman and his dummy Windy Higgins. These don't go on and on with

long set-ups but are punchy, quick pay-off bits (and if Stadelman used a pun it was seldom groan-inducing). Stadelman was clearly more influenced by vaudeville and comedy teams than by other ventriloquists (which I think is GOOD). At the least these routines help readers understand routine construction and setup-joke structure. The late, wonderful Col. Bill Boley (another performer who deserved a higher national profile since there are zillions of ventriloquists running around doing bits of his published work and others who painstakingly "emulate" his original routines) was the only other ventriloquist whose published routines came CLOSE to doing this. And to TEACH you vent? This book has it all. It gives you the substitute letters (to say for the hard letters) and words to practice to perfect them.
