# Penny Stock Trading & Options - Trading QuickStart Guides: The Simplified Beginner Guides To Penny Stock Trading & Options Trading

## Synopsis

For those who know how to pick the winners, penny stock investing offers an exciting, lucrative opportunity. In Penny Stock Trading QuickStart Guide you'll learn how to avoid the pitfalls, manage the risks, and secure the fortunes that lie ripe and waiting within this exciting market. Penny Stock Trading QuickStart Guide is the perfect book both for newcomers to the penny stock game and for veterans looking to shore up or refine their fundamental approach. If you're looking to acquire the knowledge you need to make the right buy at the right time, and if you're ready to realize huge profits at sell-off time, then this book is a must-have. Happy trading! This is not your typical options trading book, plagued with jargon and written by Wall Street academics who are more concerned with showing off than with actually teaching you how to trade. In Options Trading for Beginners, ClydeBank Finance packages the wisdom of the Wall Street elite into a straight-forward teaching tool. Options Trading for Beginners is ClydeBank Finance at its best, making complex ideas clear while endowing listeners with a wealth of powerful new knowledge. Whether you're a newcomer to options trading or a grizzled veteran looking for a fresh take on basic strategy, you'll enjoy the plain-spoken style and colorful scenarios in Options Trading for Beginners. Please note: There is a companion PDF that is available after you have purchased this audiobook. Follow the instructions in the Introduction chapter to receive your companion PDF.

## Customer Reviews

I am interested in penny stocks but didn't know a lot about them, so I signed up with an online brokerage and researched on my own. The more I read about it, the more cautious I became. After

a few weeks, I got nervous about investing and I backed out of the idea entirely and without investing a single penny. I'm glad I waited. I received a copy of this audio book free in exchange for my honest and unbiased review. As it turns out, it was just what I needed. This is a primer for the beginning investor who is interested in dipping a toe in the penny stock and stock options markets. Actually, it isn't one audio book, but two, offered together in one convenient bundle along with a companion pdf. Narrated by Peter Bierma, this is an easy to understand beginner's introduction to the world of penny stocks, and in some aspects, the stock market as a whole. The first chapter starts off with the basics of stock trading. The lessons covered the risks, the metrics and formulas needed to properly research the stocks before you even consider investing. It also warns about some of the scams that are rampant in this largely unregulated area of the market. I had already done some research into the topic, so the first few chapters were somewhat rudimentary for me. However, I was unfamiliar with the metrics, formulas and ratio calculations and they were quite helpful. These were the tools I did not have before. I now have something to work with and a renewed interest in the penny stock market. The second title in the audio book bundle was a bit more difficult. It is called Options Trading. It is a beginner's guide to stock options, something I had heard of but didn't know.
