Investing: DontBeStupid.club Answers To Stocks, Bonds, Mutual Funds, Real Estate And Retirement

Synopsis

Investing is just a game. But it's a game of skill and we play with real money. The game is run by people who don't care about you. They want your money. You can win this game, but only if you make good decisions. How confident would you be putting your money on the table to play with professional poker players? Do you think investing is any different? Investing is not saving. There are winners and there are losers. If you don't know how to play, you actually have better chances in the poker game. With cards the variance is higher; when investing the sharks always eat first. This is not the same advice you read everywhere else. This is for when you realize all the commonly repeated BS doesn't work as promised. It's your money. You don't have to do what everyone else does. Why not step away from the herd? You are the best source for your investing answers. No one cares more about your money than you. When you're done reading this book, you will be a better investor. You will make money for yourself instead of letting everyone else profit from your investments first. You can swim with the sharks. We make investing easy. There is no reason for it to be difficult. Spend a couple of hours with us now and you will make better investing decisions forever. Read now and be wealthier for the rest of your life. You know that's a good investment.

Customer Reviews

Slim....hmm, how do I say this is 20 words? The entire book can be summed up in 1 sentence, "Invest with Vanguard," which I also agree with. Wouldn't trust any other investment company. The author feels the same. He touches lightly on types of investment, then states to leave it all with Vanguard because the average person simply can't know enough, nor want to invest the time, to be a true expert.

Enjoyed very much!! (sharing with others)

Great introduction! Learned lots!

Small book with a lot of info .
