Customer Reviews

Received as advertised, totally brand new with no damages. Book is for students mainly, if you are just studying for the certification this book is not needed. It is meant for aomeone who is taking a class.

Very disappointed the book was not complete with all the chapters it was not described in the review. Yes it was brand new but not all chapters was there

I own two now, one to tear up and use in school and one to keep forever and study from and write all the jibber I want on at home. For me was worth every penny to study!

Best book ever and very cheap ‘I was going to pay much more money in my school ,but thus safes me money for other stuff like the fire phone ‘•

When i ordered it I thought it was the textbook as advertised and it ended up being the workbook! Super disappointing!
