Healthcare Disrupted: Next Generation Business Models And Strategies

Synopsis

During a time of tremendous change and uncertainty, *Healthcare Disrupted* gives executives a framework and language to determine how they will evolve their products, services, and strategies to flourish in a increasingly value-based healthcare system. Using a powerful mix of real world examples and unanswered questions, Elton and O'Riordan lead you to see that "no action" is not an option and push you to answer the most important question: "What is your role in this digitally driven change and how can your firm can gain competitive advantage and lead?" David Epstein, Division Head, Novartis Pharmaceuticals "Healthcare Disrupted is an inspirational call-to-action for everyone associated with healthcare, especially the innovators who will develop the next generation of therapeutics, diagnostics, and devices." Bob Horvitz, Ph.D., David H. Koch Professor of Biology, MIT; Nobel Prize in Physiology or Medicine In a time of dizzying change across all fronts: from biology, to delivery, to the use of big data, *Health Disrupted* captures the impact of these forces and thoughtfully develops new approaches to value creation in the healthcare industry. A must-read for those who strive to capitalize on change and reinvent the industry. "Deborah Dunsire, M.D., president and CEO, FORUM Pharmaceuticals Healthcare at a Crossroad: Seismic Shifts, New Business Models for Success *Healthcare Disrupted* is an in-depth look at the disruptive forces driving change in the healthcare industry and provides guide for defining new operating and business models in response to these profound changes. Based on original research conducted by Accenture and years of experience working with the most successful companies in the industry, healthcare experts Jeff Elton and Anne O'Riordan provide an informed, insightful view of the state of the industry, what's to come, and new emerging business models for life sciences companies play a different role from the past in driving superior outcomes for patients and playing a bigger role in creating greater value for healthcare overall. Their book explains how critical global healthcare trends are challenging legacy strategies and business models, and examines why historical leaders in the industry must evolve, to stay relevant and compete with new entrants. *Healthcare Disrupted* captures this pivotal point in time to give executives and senior managers across pharmaceutical, biopharmaceutical, medical device, medical diagnostics, digital technology, and health services companies an opportunity to step back and consider the changing landscape. This book gives companies options for how to adapt and stay relevant and outlines four new business models that can drive sustainable growth and performance. It demonstrates how real-world data (from Electronic Medical Records, health wearables, Internet of Things, digital media, social media, and other sources) is combining with scalable technologies and advanced analytics to fundamentally change how and where healthcare

is delivered, bridging to the health of populations, and broadening the responsibility for both. It reveals how this shift in healthcare delivery will significantly improve patient outcomes and the value health systems realize.

Customer Reviews

Great book! I found it full of interesting insights into our Healthcare industry and very much agreed with many of the concepts laid out within, especially the ideal of moving toward a "pay for outcome" model.

An exceptional resource for those in healthcare and life sciences seeking to understand the movement towards value based medicine. Clearly outlining the key drivers for change, Healthcare Disrupted presents the future of the healthcare industry and how new strategies will emerge to drive greater value for all involved--payers, providers, pharma and biotech, and patients themselves.

Highly recommended!

This book is a true eye-opener to the future of healthcare around the world. It clearly outlined the forces that are coming together that will put the patient at the center of the industry and use all the technology advances to improve people's health and the healthcare systems that support them.
